

Strengthening Community Based Approaches
to Management of Avian and Human
Influenza (AHI) in Asia

Interactive Session: Mapping of Tools for Community-based Management of AHI

Introduction, discussion, group work by technical theme
feedback to plenary

Co-chaired: Molly Schmidt, IFRC Southeast Asia Regional
Delegation & Anne Decobert, ADPC

5th June 2008

Background

Strengthening Community Based Approaches
to Management of Avian and Human
Influenza (AHI) in Asia

- Project on Strengthening Community/Based Management of AHI in Asia
 - Overall objective of the Partnership
 - Update from the Regional Practitioners’ Workshop, March 2008
 - Output of that workshop: Developing a “Toolkit” for community-based management of AHI in Asia
 - Case Studies
 - CD with Resources

Themes

- KAP
- IEC and risk communication
- Sustainable livelihoods and bio-security
- Surveillance (animal and human health) and training of community level health workers
- Rapid response

Group Work: questions

AHI Resource Mapping

- What tools, guidelines & materials on AHI are available in *your* organisation?
- What other tools, guidelines and materials on AHI have you found useful from *other* organisation?
- Prioritise the top 2 most useful materials per theme.

Group Work: guidelines

- 5 groups
 1. KAP
 2. IEC and risk communication
 3. Sustainable livelihoods and bio-security
 4. Surveillance (animal and human health) and training of community level health workers
 5. Rapid response
- 30 minutes
- Each group nominate 1 rapporteur per group
- 5 minute Feedback

Plenary Discussion

1. What is the optimal format for the Resource CD? Web links vs. CD softcopy
2. What tools, guidelines and materials would be useful and do you find lacking?
